

# Exhibit B - 30

*In re: Equifax Inc. Customer Data Security Breach Litigation*

Case No. 1:17-md-2800-TWT

Curtis Talley

219 Eucalyptus Lane, Mesquite, NV, USA

I have checked the settlement website and have confirmed I am a class member.

I object to this settlement, on the grounds its terms are:

- Unfair ☐ Unduly burdensome ☐
- Inadequate ☒
- Unreasonable ☐

I have objected to no class action settlements in the last five years.

I am unable to attend the settlement hearing in person.

I do not expect to be represented by an attorney.

Personal note to The Honorable Thomas W. Thrash Jr.

The minimal amount of money that people that have been affected is just a slap in the face. Companies will continue to shirk their responsibility for information security with settlements like this.

I feel that the settlement is not fair to the people who were ACTUALLY injured by this data breach! The lawyer makes bank and we get pennies!

I have objected to no class action settlements in the last five years.

Personal note to The Honorable Thomas W. Thrash Jr.

I expect the amount promised. They make more than enough money with my information to pay as promised.

If you have never been a victim of identity theft, then you have absolutely no clue of the time and effort it takes to clean up your report. In my case it took nearly two full years!! Not to mention the credit cards and apartments I've been declined for because of this. This has had a very big impact in my life, and now to find out that I may get less than \$10 for all that I've been through! You've got to be kidding me!!

*In re: Equifax Inc. Customer Data Security Breach Litigation*

Case No. 1:17-md-2800-TWT

Tuesday Thomas

4874 3/4 w Adams Blvd  
LA CA 90016

I have checked the settlement website and have confirmed I am a class member.

I object to this settlement, on the grounds its terms are:

- Unfair ☐ Unduly burdensome ☐
- Inadequate ☐
- Unreasonable ☐

I have objected to no class action settlements in the last five years.

I will not attend the settlement hearing in person.

I do not expect to be represented by an attorney.

Personal note to The Honorable Thomas W. Thrash Jr.

the settlement is not equitable enough to secure my faith I do not want them to give me free protection as they already failed to protect me and the initial monetary amount they lied and lowered considerable. I feel they need to in good faith take care of their mistake

*In re: Equifax Inc. Customer Data Security Breach Litigation*

Case No. 1:17-md-2800-TWT

Carrie Rogers

511 Cambridge Dr. Mount Laurel, NJ 08054

I have checked the settlement website and have confirmed I am a class member.

I object to this settlement, on the grounds its terms are:

- Unfair ☒ Unduly burdensome ☒
- Inadequate ☒
- Unreasonable ☒

I have objected to no class action settlements in the last five years.

I will not attend the settlement hearing in person.

I do not expect to be represented by an attorney.

Personal note to The Honorable Thomas W. Thrash Jr.

I believe that the breach of Equifax was much more detrimental to all of those affected more than the proposed settlement offers. Everyone affected should be compensated for more than proposal.

This settlement is barely a slap on the wrist, and will have an utterly negligible effect on the perpetrators. This sends a signal to the MANY big corporations playing fast and loose with personal data that there will be no consequences for their failure to protect that data.

6785 East Waverly Avenue, Redding, CA, USA

I have checked the settlement website and have confirmed I am a class member.

I object to this settlement, on the grounds its terms are:

- Unfair ☒ Unduly burdensome ☒
- Inadequate ☒
- Unreasonable ☒

I have objected to no class action settlements in the last five years.

I will attend the settlement hearing in person.

I do not expect to be represented by an attorney.

Personal note to The Honorable Thomas W. Thrash Jr.

I think that these excessively large corporations have an obligation to protect all of the data that they collect on ALL of us. When they do not protect this information vigorously, they should be punished. We should be compensated for the problems that these breaches cause to the public.

Thank you.

I object to this settlement, on the grounds its terms are:

I have objected to no class action settlements in the last five years.

I will not attend the settlement hearing in person.

I do not expect to be represented by an attorney.

Personal note to The Honorable Thomas W. Thrash Jr.

It's time we sent big business a message that this must STOP.

A \$10 settlement is a joke & will have almost no impact on Equifax.

*In re: Equifax Inc. Customer Data Security Breach Litigation*

Case No. 1:17-md-2800-TWT

James Barnes

15503 Chester Landing Circle, Cypress, TX, USA

I have checked the settlement website and have confirmed I am a class member.

I object to this settlement, on the grounds its terms are:

- Unfair ☒ Unduly burdensome ☒
- Inadequate ☒
- Unreasonable ☒

I have objected to no class action settlements in the last five years.

I am unable to attend the settlement hearing in person.

I do not expect to be represented by an attorney.

Personal note to The Honorable Thomas W. Thrash Jr.

I believe the terms of the proposed settlement are unfair due to the fact that my social security number is now out there for anyone with nefarious intentions to find. It will be out there for the rest of my life and there is no way to recover it. I am now also tasked with signing up for a credit monitoring service and then I must find a way to make sure my information is not used without my consent.

I was unaware that my information was compromised until late this years and I have already had two accounts compromised (Carecredit and ATT ) and cleaning the mess up was a nightmare. This settlement IS NOT acceptable and I would like to reserve the right to my own legal recourse..

They wish to pay less than 5-10% of what they stated they were going to pay. This is bait and switch and not only immoral but unjust especially from a company that makes billions.

Personal note to The Honorable Thomas W. Thrash Jr.

This settlement is basically a slap in the face to millions of Americans whose lives have been financially affected by this breach. We entrust these companies with our personal details, details that can, if in the wrong hands, completely devastate a person's financial life, in addition to causing mental and emotional strain. Some people were inconvenienced by having to update payment information due to debit/credit cards cancelled and re-issued; others spent countless hours attempting to stop the harming effects of identity theft as a result of the breach. Sometimes the only way an industry learns is by financial consequence.

If I may say, your honor - the offered settlement will not be any kind of a deterrent to other companies who may mistreat consumer data in the first place.

We cannot opt out of credit reporting; we cannot select our own reporting companies, so the usual market forces cannot be used to bring these companies in line - how do you boycott a credit reporting agency???

My personal information was breeched, it has left my children and I vulnerable to the consequences of such actions. Including but not limited to housing issues, credit/loan problems ect and I'm only 30 years old trying to repair damaged credit and identity theft issues is going to cost money for years. And due to this my family will suffer. It is not fair and absolutely not okay that a huge company allows this to happen and they don't have to deal with the repercussions. \$25 doesn't even cover the cost of one days worth of food how is it supposed to help cover costs for the damages of letting my ss # and personal information be leaked into threw dark webs grasps.:

I just want a fair shake in this whole mess. I don't want a zillion dollars, this whole thing could go on for decades. Who knows, but because I take a measly settlement for a few dollars now or anytime in the future would mean this case is anything but close to being done. After they settle the only people that should be celebrating is the attorney's.

Case No. 1:17-md-2800-TWT

Kristen Crawford

1540 Presley Drive, Cassville, MO, USA

I have checked the settlement website and have confirmed I am a class member.

I object to this settlement, on the grounds its terms are:

- Unfair ☒ Unduly burdensome ☐
- Inadequate ☒
- Unreasonable ☒

I have objected to no class action settlements in the last five years.

I will not attend the settlement hearing in person.

I do not expect to be represented by an attorney.

Personal note to The Honorable Thomas W. Thrash Jr.

This each has seed all sorts of heartache for us, both emotional stress and financial ruin. We have seen our credit report go from outstanding to poor. Equifax needs to be held accountable.

Personal note to The Honorable Thomas W. Thrash Jr.

I think that the revised settlement amount is inadequate for a company that makes billions of dollars per year. This company is supposed to protect our identity and keep our information safe, that was their prime goal. Instead they had an extensive data breach and hid it until it was was exposed.

The only way to prevent this from recurring is to financially make it noticeable to the company.

Personal note to The Honorable Thomas W. Thrash Jr.

With all due respect your Honor, the reduction in the settlement is inadequate and does not even begin to cover the costs I've had to endure to repair my credit, due to the identity theft I suffered, as a result of this data breach. It is unreasonable and unfair to me and everyone else this company put into this position. Please take the appropriate actions in holding this company responsible and compensating the individuals they harmed with their carelessness.

After what has happened via Equifax's negligence, both my wife and I have found our names on the Dark Web in several places. We had to use a different credit monitoring service just to ensure that we get a 3rd party view of the repercussions of this breach. We should not have had to do this. Equifax has broken its fiduciary duty, and they need to adequately compensate their customers.

An obscenely profitable company ignored a known security vulnerability, thereby opening millions of people's private data up to anyone smart enough to exploit the vulnerability. The theft of my personal information could have cost me an enormous amount of time and money, and the discussed settlement amount is simply nowhere near in line of the potential damages--damages which still may happen at a later date, as the stolen information cannot simply disappear into the aether.

I am unable to attend the settlement hearing in person.

I do not expect to be represented by an attorney.

Personal note to The Honorable Thomas W. Thrash Jr.

Thousands of people have been put at risk due to the carelessness of Equifax. Having serve as both the LAN administrator aboard two ships, and as the Top Secret Control officer while in the Navy, I know the importance of what transpired. This is not to be taken lightly, nor is the sought penalty steep enough.

*In re: Equifax Inc. Customer Data Security Breach Litigation*

Case No. 1:17-md-2800-TWT

Dennis Yu

259 Clara Street, APT 302 San Francisco, CA, USA

I have checked the settlement website and have confirmed I am a class member.

I object to this settlement, on the grounds its terms are:

- Unfair ☒ Unduly burdensome ☒
- Inadequate ☒
- Unreasonable ☒

I have objected to no class action settlements in the last five years.

I may attend the settlement hearing in person.

I do not expect to be represented by an attorney.

Personal note to The Honorable Thomas W. Thrash Jr.

This settlement serves to enrich the lawyers of the class action lawsuit, and not much else. Equifax has not only committed a horrendous act in failing to protect the private information of every day Americans, but has continued to treat Americans as a commodity upon which the corporation can continue to enrich itself on. It appalls me that Equifax has been given a slap on the wrist here, and I hope you'll reassess the harm that has been done by Equifax, and reconsider whether the damages assessed here account for the consequences of Equifax's actions and inactions.

Personal note to The Honorable Thomas W. Thrash Jr.

We have no way to keep these credit report agencies from collecting data on us. I did not ask for equifax to keep a file on me, and they won't delete it if I want them to. Equifax and any other agency must be held accountable for allowing our personal data to be exposed.

Personal note to The Honorable Thomas W. Thrash Jr.

It is very unsettling to learn that your personal information has been compromised by a retailer or company that you have had dealings with in the past and/or present. It is even more unsettling, and even disappointing, to learn that after promising a monetary settlement to those affected a company would reduce that monetary settlement to such a minimal amount. Until companies are held accountable for their actions and penalized to a degree that they take notice and make changes, we will see no decrease in the number of breaches that are occurring. I beg you to hold them accountable for their actions and also accountable for a reasonable settlement that does not do more damage to the trust we hold in them, and in turn, the trust we put in the courts and legal system that should protect us.

The issue is is that Equifax has publicly stated they would reimburse class members \$125 each - and then gone back on that promise. They should be required to stick by their original statement - just as I am.

I trusted Equifax with my personal credit information. When their Data Base was breached it put millions of people into the hands of unscrupulous hackers to destroy mine and others credit worthiness that we have worked to build for years! I am now a 59 year old single woman and rely on my credit worthiness to keep my standard of living to what it is today yet all it takes now is for one hacker to destroy all my hard work. Equifax needs to pay more than just credit monitoring, how do I know that won't be breached?!

I have objected to no class action settlements in the last five years.

I may attend the settlement hearing in person.

I do not expect to be represented by an attorney.

Personal note to The Honorable Thomas W. Thrash Jr.

I object to this settlement amount of less than \$10. My privacy has been compromised and I am now at risk of identity theft or fraud. This settlement does not compensate for my risk for loss and the cost for having a company that monitored my credit reports.

Personal note to The Honorable Thomas W. Thrash Jr.

The breach is incomprehensible. Everyone's financial history is based on our social security number and they were negligent in handling that information. The settlement should be a substantial amount for this breach. My number was used in a fraudulent transaction due to this breach.

I think it was irresponsible for Equifax to let this kind of thing happen the people that are affected have a lot more to lose than Equifax itself it is so hard once you've had identity theft or fraud you have the things removed all the time and money you spend for something that's not your fault and why should we do people have to be the one to suffer we should be on the conversation and somehow not just by having credit monitoring which most of us have to begin with it was their obligation to protect our credit so instead it's insane that it's their obligation that they should have to suffer some kind of consequence for this data breach.
